Reliable
Safety & Flow Corporation

November 13, 2026

Dear Valued Customer:

Higher material costs and broader trade-related pressures continue to affect our manufacturing costs. While we strive to reduce these impacts through continuous efficiency improvements and capital equipment investment, a price increase is necessary to maintain the product quality, service, and dependable supply you count on.

Effective **January 4, 2027**, prices for Reliable manufactured sprinklers and valves will increase by **6-8%**.

Orders placed on or before close of business on **December 28, 2026,** will be honored at current pricing.

We recognize that this notice provides limited time to adjust estimates and purchasing plans, and we understand the challenges that creates. As always, your sales representative is available to help you review the impact on your business.

We thank you for your understanding and appreciate your continued support for Reliable Safety & Flow Corporation. We will continue to provide you with superior quality, technology, and service while striving for cost efficiencies.

Sincerely,

John M. McNamara
