

News for Our Valued Partners

May 1, 2025

To Our Valued Partners,

Pentair remains committed to providing you, our valued customer, with exceptional support, services and products. Tariff developments over the past few weeks have resulted in significant material cost increases for our business. We continue to work diligently on cost reductions without sacrificing quality or availability of our products. Unfortunately, we must take pricing action in response to the impact the current tariff environment is having on our business. We value the relationships developed with our customers over decades of working together, which is why we are only passing through a portion of the total tariff impact through a pricing adjustment at this time. Effective on the dates indicated below, we will adjust our pricing policies as follows:

- **Pricing Changes on May 15:** New pricing will go into effect for Residential & Irrigation Flow water supply/water disposal category products as of 12:01am on May 15. All orders accepted **on or after May 15, 2025**, will be subject to and confirmed at updated prices. Updated pricing will be available in our customer portal.
- **Orders Subject to Prior Price List:** Orders accepted prior to 12:01am on May 15, 2025, will remain eligible for the pricing in effect as of the date of acceptance. However, we continue to reserve the right to monitor and modify confirmed purchase orders or reject incoming orders that are larger than usual, at our discretion.

Your Pentair Sales Representative is available to address any questions and guide you through this transition. We appreciate your understanding and partnership during this period and remain committed to providing high-quality products and services.

Regards,

Bill Beard

General Manager
