

The Reliable Automatic Sprinkler Co. Inc.
Manufacturer & Global Distributor of
Fire Protection Products

May 7, 2026

Dear Valued Customer,

Reliable continually evaluates market conditions to ensure we maintain the highest standards of product quality, service, and supply reliability.

Due to sustained increases in input costs, we will implement a price increase of approximately 6–10% on Reliable manufactured products, effective July 6, 2026.

Orders placed on or before June 29, 2026 (close of business) will be honored at current pricing.

This adjustment is necessary to offset ongoing cost pressures, including:

- Increases in key raw materials, including copper and aluminum
- Rising freight and logistics expenses driven by higher fuel and transportation costs
- The impact of evolving trade policies and tariffs, including Section 232 tariffs affecting imported materials and components
- Broader market conditions impacting manufacturing and supply chain operations

While we have worked diligently to absorb these increases where possible, the magnitude and persistence of these cost drivers require us to take this action.

We will make the new list pricing available in advance on our website www.reliablesprinkler.com.

We thank you for your understanding and appreciate your continued support for The Reliable Automatic Sprinkler Co. Inc. We will continue to provide you with superior quality, technology, and service while striving for cost efficiencies, especially during these challenging economic times.

Sincerely,

John M. McNamara

John M. McNamara, President
