

June 26, 2026

To Our Valued Nucor Customers,

Please be advised that effective immediately, Nucor Tubular Products – Trinity will implement a price increase due to ongoing market pressures. These include sustained increases in raw material costs, tightened transportation capacity, and higher fuel expenses.

The following minimum increases will apply:

- A53 Pipe: \$80/ton
 - Roll Groove Adder \$60/ton
- Sprinkler Pipe: 6%

All Non Standard Lengths are subject to a \$ 75/ton Adder

These adjustments apply to all new orders, quotes, and any contracts not previously confirmed by Nucor.

We understand that price changes can be challenging. We are seeing lead times on production items gradually extend in line with current market conditions. Please know NUCOR is here to support you and will continue working closely with you to help manage your needs.

If you have any questions or would like to discuss your specific needs, please contact your Nucor sales representative.

We appreciate your continued partnership.

Sincerely,

Stephen R. Funk
