Fayette Nipple

November 6, 2026

Re: Price Increase

To: All Fayette Nipple customers

Due to continued increases in raw material, freight, and energy costs we will be implementing a 13% price increase for our carbon welded Sch. 40 and Sch. 80 pipe nipples effective December 7, 2026. Pre-increase orders will be limited to a maximum of 60 days of normal purchase volume.

New price sheets will be emailed once they become available. Please contact your sales representative with any questions about this increase or the pre-increase order limit.

We thank you for your continued patronage.

Sincerely

Scott Smith
