NUCOR®
TUBULAR PRODUCTS

November 5, 2026

To Our Valued Nucor Customers,

Please be advised that effective immediately, Nucor Tubular Products – Trinity will implement an additional price increase in response to strengthening market demand.

The following minimum increases and adders will apply:

Minimum Price Increases

- A53 Pipe: $100/ton
- Sprinkler Pipe: 6%

Applicable Adders

- Non-Standard Lengths: $75/ton
- Roll Groove on A53: $60/ton

These adjustments apply to all new orders, quotes, and any contracts not previously confirmed by Nucor.

We understand the importance of pricing visibility as you plan your business. As market demand strengthens and production lead times extend, we may need to evaluate pricing separately for items with longer lead times. Current price levels apply to material intended for prompt shipment or pickup. Orders requesting delayed shipment, extended storage, or delivery beyond normal lead times may require separate pricing.

Nucor remains committed to working closely with you to plan ahead and effectively manage your supply requirements.

Sincerely,

Stephen R. Funk
